

Reference Layout for nPM1300-QEAA

Config 4: Full + High frequency decoupling

Designer note:
C14, C15 and C16 are additional high frequency capacitors for improved decoupling in designs meeting stricter EMC requirements.

Nordic Semiconductor does not warrant the accuracy or completeness of this documentation or any included information. Nordic Semiconductor makes no assurances that this design will meet specification, be appropriate for your application, or fit for any particular purpose, or that it will function in an implementation. Nordic Semiconductor also does not claim that the design is ready for production. It is your responsibility to thoroughly validate and test your design implementation to confirm the functionality of your application.
